Please Help Us Finish A Meeting Place For La Vid!

Utilizing the help of work teams, BEAMM has been assisting Iglesia La Vid (The Vine Church) in Laredo, TX, with construction of a new meeting facility. Your financial gift can help La Vid occupy this building in 2010!

In April of 2005, Carlos Cano took over as Pastor of Iglesia La Vid (The Vine Church). The church had been planted thirteen years earlier as part of a charismatic denomination, but had adopted the Reformed Doctrines of Grace in 2004 and became a fledgling Mission Church of the South Texas Presbytery of the Presbyterian Church in America (PCA). La Vid expects to become a particular church of the PCA in August, 2008.

Because the church had outgrown its current space, and to better attract new people from the community, the church began building a new meeting facility in the Fall of 2005. They invested all of their savings at that time in the construction of the steel and cement block shell of the building. Now the building sits as the

congregation tries to slowly raise the additional \$20,000 necessary to occupy the building. While BEAMM has brought in small work teams over the past three years to help with the construction, these teams have not been able to raise the cash necessary to complete essential components of the building, such as electrical, plumbing, carpet, and parking lot paving.

BEAMM sees La Vid as vital to reaching the Eastern end of the border with the Gospel. This building is essential to their growth and effectiveness as a congregation.

Your immediate gift of \$50, \$100, \$1,000, or \$10,000 will allow La Vid to occupy the building in 2010 and become an even greater light to the people of Laredo!
